

Centre for Energy Efficiency

The World Institute of Sustainable Energy's Centre for Energy Efficiency (CEE) is a dedicated and specialized centre, striving towards the advancement of the energy efficiency sector in India.

We offer the following services:

- **Policy and Regulation Support** at central and state government level
- **Technical Assistance Studies** which includes feasibility studies, detailed project reports, financial modelling of energy-efficiency projects
- **Retro-commissioning Studies** for industrial and commercial facilities
- **Process & Impact Evaluations for Energy Programs** administered by government and private entities to assess the effectiveness of the programs and to suggest improvements for better program delivery
- **Measurement & Verification** services for end users along with big data analysis
- **Market Characterization & Baseline Studies** for technologies or by sectors
- **Development of Strategic Energy Management Plans**
- **Program Planning and Implementation** which also includes a wide range of services, including program outreach, project development, customer assistance, trade ally network management, and program tracking and reporting.
- **Technical Consultants to Program Administrators** for under-maned initiatives
- **Building Energy Simulation** for commercial and institutional facilities using specialized software such as eQUEST

We tailor our methods to individual project/client needs/situations, such as engineering based M&V, site based desk reviews, aggregate billing analysis, on-site verifications, and on-site metering.

We have expertise and experience to serve as consultant to investors, project developers, industrial facilities, government and non-government agencies, as well as regulatory authorities, offering end-to-end solutions for energy efficiency projects.

Founded

2004

A **not-for-profit** Society and Trust registered under the Societies Registration Act, 1860, and the Bombay Public Trusts Act, 1950.

Founder

Mr. G. M. Pillai

A retired IAS officer with three decades of experience in sustainable development, project implementation and policy formulation at senior-most positions in the government at state and central levels

Multidisciplinary Centres

- Centre for Regulation & Policy
- Centre for Wind Power
- Centre for Solar Energy
- Centre for Energy Efficiency
- Centre for Trainings & Conferences
- Centre for Communications & Coordination
- WISE Press

Key Services in EE Sector

- Technical assistance
- Process & impact evaluations
- Measurement & verification (M&V)
- Public policy advocacy, research, formulation and risk assessment
- Market research and programs outreach
- Trainings in technical (including ECBC) and policy areas
- Organization and facilitation of conferences
